**TTC Manages Environmental Engineering & Science Conference Registration**

As the administrative services company of the Association of Environmental Engineering and Science Professors (AEESP, [www.aeesp.org](http://www.aeesp.org)), TTC was selected to manage registration for the 2017 Research and Education Conference hosted at the University of Michigan, Ann Arbor from June 20-22. The conference hosted over 700 participants from colleges and universities across the U.S. and around the world and featured over 200 parallel session presentations, two keynote speakers, a poster session, Awards Ceremony and two receptions, as well as numerous workshops and side events in conjunction with the conference. Led by Events Coordinator Vera Medici, right, TTC's role was to create and manage the online registration page and payments, and oversee onsite check-in and name badges. Vera was assisted onsite by college interns and volunteers.

Vera joined TTC in 2015. She holds a B.A. in Communication from George Mason University.
